Stainless Steel Kitchen Sinks

# About Us

## Who we are

*At Saviya Kitchen Sinks, we specialize in crafting premium kitchen sinks and luxury bathing solutions that combine style, innovation, and durability. We are more than just a kitchen sink manufacturer—we are pioneers in redefining kitchen spaces. With decades of experience and a keen eye for detail, we specialize in crafting sinks that are not only durable but also beautiful. Our team of designers and engineers work tirelessly to innovate, ensuring that every product we create reflects our commitment to quality and sophistication. We believe that the kitchen is the soul of the home, and our sinks are designed to be the centerpiece, providing both style and utility. From timeless classics to contemporary designs, our diverse range of products is crafted to meet the unique needs and tastes of our customers, making every kitchen a place of inspiration and joy. Whether you're renovating your kitchen or building a new one, we're here to provide you with sinks that elevate your space and meet the demands of modern living.*

## Our Mission

*To elevate the heart of every home with premium kitchen sinks that merge innovative design with superior quality. We are committed to providing elegant, functional solutions that enhance your kitchen experience.*

## Our Vision

*To be the top choice for kitchen sinks worldwide, recognized for our exceptional craftsmanship and cutting-edge design. We aim to set new industry standards, transforming kitchens with products that are both beautiful and durable.*

Stainless Steel Kitchen Sinks

## SINK REFERENCE GUIDE

### Creativity In Action

#### AISI-316 Grade

Grade AISI-316 is the standard molybdenum-bearing grade, the molybdenum gives 316 better overall corrosion resistant properties, particularly higher resistance to pitting and corrosion in chloride environments. Available on Signature series sinks.

#### AISI-304 Grade

Saviya sinks are made from premium-grade AISI-304 steel, a heavy-duty material, for the high level of durability and reliability.

#### 1.5mm Thickness

The thickness of the stainless steel is probably the main point to check when buying a sink. The thicker the steel, the less susceptible it is to denting, bowing, noise, temperature changes and damage from hard knocks of pots and pans. Saviya Prism Series sinks are available in 1.5mm thickness stainless steel.

#### 1.2MM THICK SS-316

Thicker steel means a stronger sink. Signature Series is made with high grade 1.2mm thick AISI-316 stainless steel, this series is exceptionally long-lasting and dent-resistant.

#### 1.0mm Thickness

Saviya uses 1mm thick steel for most of its series. This makes the sinks less vulnerable to denting and bending even after years of receiving knocks from utensils.

#### 3mm Frame

3mm frame is used in Royale Series. The embodiment of thicker frame gives more strength and solid look. We assure a durable sink and a great look.

#### 10mm Corner

Fresh, geometric design offers straight sidewalls and a flat bottom for a modern look and more usable space inside the sink. Items sit flat in the bottom of the sink, and glassware is less likely to tip over and break tight 10mm corners are easy to clean. Available on Prism and Royale Series sinks.

\*Thickness relates to the characteristics of the raw materials. It usually varies depending on the quality of the sink and the depth of the bowl. The measurement can also vary from the drainer to the bowl due to the manufacturing process.

**SAVIYA®**

Stainless Steel Kitchen Sinks

## SINK REFERENCE GUIDE

### Creativity In Action

#### 20mm Corner

**Saviya** is the only manufacturer in India who is manufacturing deep drawn sinks in 20mm corner radius in Signature Series. It gives the sink geometric design, modern and aesthetic look and strength of deep draw technology.

#### Zero Radius Corner

Perfectly squared 90° corners give the sink a modern look with a flat bottom and straight side walls for more usable space inside the sink. Available on CUBE Series sinks.

#### Drainer

This square shaped drain with its unique design helps in hassle free waste disposal. It keeps your drain clog free. Easy to clean and use it is a hygienic alternate to regular drain.

#### Perfect Drain

The next generation drain, the Perfect Drain is the perfect solution to have a clog free drain. The dual anti-clog technology is used to remove waste in smarter way. The first bin helps to stop the large particles from moving down in the drain and clogging it, the second works for finer waste. Easy to clean this drain is a hygienic way of food disposal, and can be emptied out in a bin without any hassle.

#### Intellidrain

As the name suggest it is an intelligent way of ensuring a clog free and hygienic drain while making it easy for you to dispose of the food waste.

#### Undercoat with Sound Suppression Pad

**Saviya** use special grade sound-suppression pads and undercoating. The main advantages of this special feature are that it absorbs sound, protects against condensation build-up inside kitchen cabinets and helps to maintain sink water temperature.
